A utility that allows you to create key sequences for your email clients. KEYMACRO is a powerful utility that will automate the sending and receiving of email through hotkeys. With just a few clicks you can create, store and send out unlimited different key sequences, through email clients and web browsers. Save Time With A Powerful Hotkey Program That Sends Email To The Right People KEYMACRO contains all the features you will need to quickly send and receive email messages on all your computers and different devices using hotkeys. Whether you use email clients such as Thunderbird, Outlook or any other of the many different popular applications, all of them require you to type your email address every time you want to send a message. All that typing can be a real pain and sometimes you may forget a contact's email address. And sometimes, you may even accidentally send out a message that will not get delivered. Fortunately, with KEYMACRO you can type a hotkey on your keyboard that will send your email and without typing your address or subject, it will automatically fill in the details for you, saving you precious time. KEYMACRO allows you to send and receive email using hotkeys and you can also create unique key sequences for a specific email address and for a specific application, to help you send and receive email in a faster and more organized manner. Use powerful Hotkey Features To Settle Email Communication At the Push of a Button KeyMACRO is a powerful utility that will automate the sending and receiving of email through hotkeys. With just a few clicks you can create, store and send out unlimited different key sequences, through email clients and web browsers. When you have KEYMACRO installed on your computer you can use the Hotkey Toolbar as a window toolbar, enabling you to send and receive email from any window on the computer. With just a few simple keyboard shortcuts you can send an email with just a few keystrokes. You can also use your Hotkey Toolbar in other useful ways such as starting your favorite web browser, launching and closing applications, launching documents and more. KEYMACRO is easy to use, powerful and compatible with all the major email clients such as MS Outlook, Outlook Express, Thunderbird, Apple Mail, Eudora, Entourage, Outlook for Mac, Eudora for Mac, Outlook Express for Mac, Outlook for Windows, Pegasus Mail, ReMail, Evolution, Evolution for Mac, and more. You can also use it to send and receive email from web
