## **What's new in Elden Ring:**

◆ **The “Tower of Success”** ◆ **The Prologue of Tarnished Heroes** “An online game is unknown territory, but the fighting force is what matters.” With this spirit in mind, the idea of fighting against foes and producing your own identity would not be different from actual human life.” As the protagonist, Tarnished, you begin your daily life by choosing three attributes (strength, agility, and intelligence), an initial attribute rank, a name, and a class. As you continue living in the Lands Between, you experience various quests and proceed through the class questline. On the way, you would collect experience by continuously attacking enemies, and your class would be changed based on your accumulated experience points. It was in this order of class change that we made many battles end. During various battles, the information related to the character would be collected in the form of Experience Points (EXP), and after collecting enough EXP, the class would be changed.

◆ **The “Lands Between”** ◆ **A Time for Restoration** After the events of the world of Ravnica, many monsters have awakened. It is your mission to conquer several dungeons to restore the lands between. “We want to create a world with a difficult background with dangers and challenges near every corner.” To fulfill this, we put a lot of work into the development of the game. From the beginning of development to now, we have been deeply thinking of how to implement such a large world, and after playing this game, you will be able to fully understand our thoughts. In the end, the development duration will reflect the number of hours you have played the game.

---

**Starting with the “Tower of Success”, after the “Lands Between,” you will be able to meet powerful characters with various personalities, and will experience different battles in a variety of maps and in different environments.**

**◆ The “Elden Ring” ◆ You are a Dragon of the Elden Ring You are a Dragon of the Elden Ring, and together with the dragon dauntless and you, you will fight the rise of the new war of the Dragon Ruler and the demons. ◆ The “Dark Conversion” You will enter the light and evil.]]>Sun, 07 Nov 2016 07:44:**

Cervical stress incontinence: surgery versus rehabilitation. Two patients with severe cervical stress urinary incontinence (SUI) had their condition treated either by an artificial urinary sphincter (AUS) implantation or by a specific rehabilitation program. Both patients underwent a complete urodynamic study (UDS) and examination, including cough test, urethral barometer, cough test with Valsalva maneuver, and gynaecological examination. The AUS implantation was unsuccessful in the first patient, while the second patient has been followed for 7 years with good results in terms of functional and clinical improvement and a satisfied quality of life. The same urodynamic evaluation carried out before and after rehabilitation showed a reduction of the post-void residual urine volume (from 165 ml to 42 ml) and a significant reduction of the maximum urethral closure pressure (30 cm H<sub>2</sub>O to 20 cm H<sub>2</sub>O). The rehabilitation program seems to be the first choice treatment for cervical SUI; in particular, it seems to improve patients' quality of life more than surgery.
